

Sports Premium Funding 2014/2015

Broadlands Primary School

Funding Available Annually: £8,640

The Department for Education tells us that:

“The government is providing additional funding of £150million per annum for academic year 2013 to 2014 and 2014 to 2015 to improve provision of physical education (PE) and sport in primary schools”.

This funding is ring-fenced and therefore can only be spent on provision of PE and sport in schools. Broadlands Primary School has committed to improving the provision of PE and sport, working towards achieving four key priorities.

1. To improve the quality of teaching and diversity of the curriculum in order for all pupils to make regular and sustained progress.
2. To increase opportunities for all pupils to participate in a range of extra-curricular and competitive sporting opportunities.
3. To use physical activity to improve pupils health, wellbeing and educational outcomes.
4. To use PE, school sport and physical activity to impact on whole school priorities.

The breakdown of spending was as follows:

81%	Enabling specialist PE teachers within the federation to deliver high quality PE and develop their own knowledge of Primary PE teaching to enhance this further and ensure sustainability.
3%	Youth Sports Trust membership.
2%	First aid training for staff involved in the delivery of PE.
6%	Provisions to allow access to CPD opportunities.
5%	Increasing participation opportunities for pupils in sports festivals, competitions and extracurricular opportunities.
3%	Facility upgrade.

Impact

As a result of the above

100% of pupils accessed 2hours of quality PE per week, accessing a broad range of activities.

100% of pupils received specialist PE delivery as part of the curriculum.
100% of pupils experienced different activities utilising the upgraded facilities, improving the learning experience and sporting opportunities for pupils.
Staff involved in the delivery of PE were able to effectively administer first aid when required, directly impacting on pupils participation and enjoyment of PE.
First aid was effectively covered in extra curricular clubs and attendance of competitive opportunities.
25% of staff engaged in outside CPD opportunities directly impacting on both staff and pupils.
KS1 and KS2 had the opportunity to attend after school sporting clubs free of charge. 48% of pupils accessed this opportunity, increasing by 21%.
Competitive sporting opportunities doubled for KS1 and KS2 pupils (14 independent opportunities, increase of 7 independent opportunities).

Next steps

Our experience this year informs us that the focus for PE and school sport will include:

- Continue to invest in CPD for staff to maintain and improve the quality of teaching and learning in PE, encouraging staff to identify their own needs and areas for development.
- Continue to invest in specialist teachers to have maximum impact on pupils learning and progression.
- Invest in sporting opportunities that will help development of targeted pupils in particular those pupils who are least active through implementation of a change4life club.
- Increase and maintain the extra curricular offer, investing to increase numbers of participants accessing these opportunities across KS1 and KS2.
- Increase the opportunities for children to compete in inter school competitions and festivals.
- Foster the competitive nature in pupils, developing their sportsmanship and social development through sport.
